Position of Prof. W. M. Stewart Is Attacked by Several State Pedagogues.

HE UPHOLDS INDIVIDUALITY

VISITORS ARE ENTERTAINED AT UNIVERSITY AT LUNCHEON.

The animated discussion begun at the Thursday session of the county superintendents was resumed yesterday morning with the opening of the session. Professor William M. Stewart, who had thrown the bomb the day before by advocating perfect freedom as to the course of study, the teaching of technical subjects in every grade and kindred innovations, secured the floor and began to explain his position. He maintained that it is only in the in-terest of individuality that he took

practice work she would need many "OLD HOSS" HARKNESS IN TOWN. years of practical work as a specialin education before she could be safely trusted to formulate a course of study to which she could adhere or which she herself would wish to adstudy as followed today in the city schools and in the state schools does not interfere with the teacher's individuality, and that it is not the methodical teacher who finds trouble in following the course of study. He paid a high tribute to the training school, but expressed the opinion that a little training is like a little learning, dan-

Superintendent W. S. Rawlings of Provo and Superintendent L. E. Eggertsen of Springville took part in the discussion and said they thought the normal graduate had been shown to be an immature creature in a school reem, and that only amateur work could result from her being given more freedom than she now has.

Professor Stewart maintained his po-sition stoutly, but with the utmost good nature, and still asserted that the present system has a tendency to curb originality and individuality.

A humorous side of the question was esented by Principal A. S. Martin of the Grant school, who read a quotation from "Squeers," in "Nicholas Nickleby." W. J. Kerr of Loran also took an active part, reaffirming his statement that the beginning of tech-nical education should be in the lower grades, and that education should be made practical.

Visits to the Schools.

Following the discussion a paper was read by Superintendent Orson R. Ryan of Wasatch county on "The Pur-

The entire association went to the university for luncheon at noon and emained as guests of that institution for the afternoon. Professor Stewart conducted them through the various departments, and they remained some time in the training school watching the work of the pupil teachers. The business meeting which was set for this postponed and will be held at 9 o'clock this morning.

purposes of gambling, was tried yesterday before Judge Diehl of the city court. Officers Richard L. Shannon and H. Wilson testified that they had seen gambling going on in room 229 D. F. Walker building. They asserted they saw four men sitting in a game of stud poker. These men were Harrah, E. Roy, a man named Moore and another man whose name is unknown. Officer Shannon said he saw one of the members of the quartette throw a ten-dollar bill upon the table. This, said the witness, was taken by Harrah, who gave a number of chips in return for the money. Both witnesses testified that they overheard bits of conversation carried on during the game and learned the value of the differently colored chips. Officer Shannon said Harrah had confessed that he had moved into the room in the Walker building a week or ten days before his arrest.

CARD FROM SCHRAMM.

His Liberal Offer to Treat Worst Case of Catarrh in Salt Lake City. To the Editor:

I have such an unusual offer to nake to your readers, one that will be of the greatest value to them, that hope you will give this letter prominent location

For some time I have had an opportunity to watch the results following the use of Hyomei, a treatment for catarrh that cures by breathing med-icated air, absolutely without any stomach dosing. The results have been so remarkable that I feel justified in making a public offer to treat the worst case of catarrh in Salt Lake City with the understanding that if Hyomei does not cure, it will cost absolutely nothing.

People who have spent a great deal of money with catarrh specialists, deriving but little benefit, have seen alimmediate good results from the use of Hyomei, and continued treat-ment with this remedy has resulted in

The complete Hyomei outfit costs only \$1, and consists of an inhaler that can be carried in the vest-pocket, a medicine dropper and a bottle of Hy-omei. Should this not be enough for a cure, extra bottles of Hyomei can be obtained for 50 cents. Compare this small expense with the fees charged by specialists, and remember we guarantee the treatment will cost nothing unless it cures. I hope this offer will be accepted by

many of your readers. Very truly yours F. C. SCHRAMM.

The speakers were Mathonihah Thomas, Mrs. Lydia D. Alder of the exhibit committee; Miss Lydia Holmgren, instructor ni domestic, science of the Latter-day Saints' university, and Mrs. Mary F. Kelley, secretary of the ladles' auxiliary. The meeting was presided over by Mrs. A. V. Taylor, president of the ladies' auxiliary.

Miss Holmgren urged young men of Utah to learn the trades and industries of their home state and not to seek employment in eastern and other states in preference. From personal chemical analysis made by her in her capacity as instructor in domestic science, she has found that many domestic commodities of Utah-make are far superior to those imported and advertised as the best.

Mrs. Alder's remarks were along the same lines. Purchasing goods and foodstuffer a propose to desired attorney was bitterly at tacked. Judge Howell said, in part: "Being of opinion that there is no general necessity for a grand jury, there only remains to consider whether these particular newspaper criticisms which are bought to my attention are sufficient to justify the court in summoning one. I agree with the district attorney that the public, as well as himself, is entitled to have a most searching investigation will suffice, and it would serve no useful purpose to duplicate it. Inasmuch, therefore, as the ordinary machinery of a grand jury to accomplish the same result. The district attorney can exercise him prevokes a citizen, which he does not lose simply because he holds a public office, to swear to a complaint against these who, as he claims, have maligned him, and if there is sufficient cause therefor they will be brought to trial, so that a grand jury is unnecessary for that purpose."
